Breath taking film

I watched a new fantastic film which called "Star wars" yesterday. It was like challenge to try to get tickets in the cinema but my block made a present for me and give a pair of tickets.

The "Star Wars" it is one of the famous film in the world. It was produced by well-known producer George Lucas who made enourmous number of films before. The plot of the film is distroying dark side of force by knights who are fighting with lightsabers! The actors squad was unbelivable there was star who was playing main role in the film „Indiana Jones" before and others famous actors. There are two things which were really enjoyable for me. ~~The~~ Special effects were at the high level and the dynamic was really fascinating. Playing of actors was the best moment because they gave all emoutionalls so lively. I would like to recomend this film to my readers because it's worth it.

In conclusion, I would like to point that „Star wars" one of the best films which I ever seen. You should pay your attention on this film.
